WHITEPAPER

Welcome to the Meme Revolution: WallStreet Satoshi Memes

You can see the complete WallStreet Satoshi Memes whitepaper on the website, this contains only information for the City of Memes, the Ethereum and BNB Casual Game Property Simulation brought to you by the WallStreet Satoshi Memes Team.

NOTE: PLEASE SEE DISCLAIMER, NOT FINANCIAL ADVICE.

City of Memes

City of Memes is a fork of the popular City of Paradies Property Game which has disappeared from the internet as we understand it due to infighting within the original Dev Team. This presented an opportunity to create a fork of that game and provide it to our WSM20 family. Created by our Dev, and modified with the WSM20 look and feel so it integrates seamlessly with the current and future WSM20 offerings.

City of Memes is an Ethereum Play-to-Earn platform in which you can earn daily rewards by playing a property simulation game. At this point we have not integrated the referral system that City of Paradise had, but we may implement that in a future version.

Property Plans

Elevate your earnings

WHITEPAPER

Returns, Est. Daily Returns, Number of Days and Est. Total Returns.

Rewards Table:

Property	\$Price	Est. Hourly Return	Est. Daily Return	Days	Est. Total Return
Cottage	50	0.06 USDT	1.44 USDT	100	144 USDT
House	100	0.17 USDT	4.08 USDT	100	408 USDT
Villa	200	0.42 USDT	10.08 USDT	100	1008 USDT
Hotel	500	1.25 USDT	30 USD	100	3000 USDT

Mechanism

Earn passive income : Unlock profits with property on BNB Chain and the Ethereum Blockchain's Play-to-Earn platform!

1. In order to own properties, players need to buy properties and rent land from the governor.
2. The player owns a property on the land and starts generating hourly profits from it.
3. After 100 days the contract ends, the land and properties will be taken over by the governor.
4. To maximize profits, players can buy multiple properties.

Deposits

By clicking on the 'Buy' button, your wallet provider will ask approval to spend USDT token, make sure you make approval in amount of needed by City of Memes (Main Price + Rent Land).

After the approval, wallet provider will ask again for submitting the buy transaction, this procedure will move your USDT balance in amount of (Main price + Rent Land) to City of Memes Smart Contract.

After those 2 transactions are confirmed, your owned properties will shown in your account on City of Memes.

Withdrawals

By clicking on the 'Withdraw' button, wallet provider will ask for withdrawal confirmation, after the transaction confirmed, your money should be transferred to your address.

WHITEPAPER

Conditions that apply to withdrawals are listed below :

1. Minimum balance to withdraw is 10 USDT
2. Maximum withdrawal 5000 USDT a day
3. Only one withdrawal per day

Upon withdrawal, 10% of the amount will be deducted and distributed as follows:

- System Fee : 2%
- Referral levels 1-3 : 2%
- Referral level 4-7 : 0.5%

WHITEPAPER

Security Audit

Our commitment to providing our WSM20 Family quality products and safety, our contracts are always verified, and Audited. The original City of Paradise contract which we have cloned for City of Memes went through a thorough crypto security Audit (Reference City of Paradise Gitbook which you can find online),

WHITEPAPER

website administration are fully on the client's side. We do not have influence over client operations, which can lead to website changes, withdrawal function closes, etc. One always has the option to do this through the contract. Any concerns about the project themselves need to be raised directly to the project owners and not through Haze Security.

Investors are not in any way obliged, coerced, or influenced to invest in projects audited by Haze Security. We are not responsible for your funds or guarantee you profits. We highly recommend that investors do their own research and gain crypto experience before investing

Conclusion:

The City of Memes (clone of City of Paradise) Smart-Contract found no vulnerabilities, no backdoors, and no scam scripts.

The code was tested with compatible compilers and simulated manually reviewed for all commonly known and specific vulnerabilities.

So, the CITY_OF_MEMES Smart-Contract is safe for use in the Binance Smart Chain/BMB Chain main network.

Smart contract information:

- ♣ CityofMemes (CityOfParadise Clone)
- Contract Name: City_of_Memes
- Compiler Version: v0.5.10+commit.5a6ea5b1
- Optimization Enabled: No

Contract Overview Checklist

The code was tested with compatible compilers and simulated manually reviewed for all commonly known and specific vulnerabilities.

Vulnerability description	status
Visibility of functions and variables	Passed
Compiler error	Passed
ROI Investment Plan	Warning
Transfer Block	Passed
Floating pragma	Passed
Timestamp dependence	Passed

WHITEPAPER

Deprecated solidity functions		Passed
Gas limit and loops		Warning

Dos with block gas limit		Passed
Reentrancy security	used	Not
Malicious libraries		Passed
Integer overflow/underflow		Passed
Using inline assembly		Passed
Missing event emission		Passed
Missing zero address validation		Passed
Use of tx.origin		Passed
Oracle security		Passed
Outdated compiler version		Warning
Block values as a proxy for time		Passed
Presence of unused code		Passed
Data consistency		Passed
Money giving bug		Passed
Unnecessary use of SafeMath		Warning
Self-destruct interaction		Passed
Signature unique id		Passed
Weak sources of randomness		Passed
Optimize code and efficient gas fee		Warning
CRITICAL ISSUES	(Critical, high severity)	0
HIGH ISSUES	(High, medium severity)	1
ERRORS, WARNINGS	(Medium, low severity)	0
OPTIMIZATION	(Low severity)	1
RECOMMENDATIONS	(Very low severity)	0

WHITEPAPER

High Issue

The system used is called ROI and must be considered HIGH-RISK.

Users' principal deposits cannot be withdrawn; users can get dividends and referral commissions. Dividends are paid from deposits of other users. Do always invest with proper knowledge and investigation.

Optimization Suggestions

Loop on the dynamic variable (low severity). If the user gets more parallel deposits, his withdrawal transaction is going to cost more transaction fees because the loop on the dynamic variable is used in the 'withdraw' function. In case exceeding the GAS limit of the size of the transaction, withdrawal is not possible.

Note: This comment is relevant only if a user creates an excessive amount of parallel deposits (more than 100).

Independent description of the smart-contract functionality

The CITY_OF_MEMES smart contract provides the opportunity to invest a certain amount of USDT in the contract and gets different daily profit on investment in 100 days if the contract balance has enough funds for payment.

- ❖ All dividends are calculated at the moment of request and available for withdrawal only once a day.
- ❖ Each subsequent deposit is kept separately in the contract to maintain the payment amount for each deposit.

FOUR INVESTMENTS PLAN

Plans	Total Return	Daily Profit	Days	Deposit amount	Rent	Withdraw
1	288%	2.88%	100	50 USDT	5 USDT	Every 24 hours
2	408%	4.08%	100	100 USDT	10 USDT	Every 24 hours
3	504%	5.04%	100	200 USDT	20 USDT	Every 24 hours
4	600%	6%	100	500 USDT	50 USDT	Every 24 hours

- ❖ Users must pay a deposit amount + rent amount to invest in each plan.

For example, a user has to pay 55 USDT to invest in Plan 1, 50 deposit and 5 rent.

WHITEPAPER

- ❖ The user's daily profit is calculated based on the deposit amount.

Withdraw

- ❖ Note that the principal deposit cannot be withdrawn (typical with most liquidity mining or play-to-earn dapps).
- ❖ The minimum withdrawal amount is 10 USDT.
- ❖ Users can only withdraw once every 24 hours.
- ❖ The maximum withdrawal amount in each transaction is 5000 USDT.
- ❖ do not hold more than 5000 USDT in available balance, a maximum of 5000 USDT only will be paid to the user.
- ❖ In each withdrawal:
 - ❖ 90% will be sent to the user's wallet
 - ❖ 2% will be sent to the owner's wallet
 - ❖ 8% will remain in the contract (This 8% is given to referrers as commission)

Referral System (Match Bonus)

The contract pays an 8% referral commission on daily profit over 7 levels:

- Level 1: 2.0%
- Level 2: 2.0%
- Level 3: 2.0%
- Level 4: 0.5%
- Level 5: 0.5%
- Level 6: 0.5%
- Level 7: 0.5%

Notes:

- The referrer is specified once at the time of the first deposit and is assigned to the user without the possibility of changing. From each withdrawal, the referrer will get his percentage.
- The referral profit is based on the users' daily profit, and during withdrawal, the referral profit is transferred to the uplines according to the specified percentages.

Smart Contract

On the Binance Smart Chain (BSC)/BNB Chain (BNB):

Drive on over to

<https://bscscan.com/address/0x383684915AD4549884125d529df3BB45A3d479EB>

to find the CITY_OF_MEMES Smart Contract (CA) at

address: 0x383684915AD4549884125d529df3BB45A3d479EB (Source Code Verified)

We are a City of Paradise clone, with intent to continue the popularity of the now gone popular DeFi game.

The City of Paradise Dapp was a popular Play-to-Earn Dapp which shut down, to the best of our knowledge, and from whom we believe to be a reliable source) due to Dev team infighting, no other untoward reasoning.

To do your own research and take a look at the City of Paradise Smart Contract, you can see it at:

WHITEPAPER

Disclaimer: Not Financial Advice

Hold onto your moon and mars boots, fellow members! Before we embark on this wild ride with Wall Street Memes new and improved true memecoin (WSM20), let's take a moment to remember that the cryptocurrency market can be as volatile as a bull in a china shop. While we're all about spreading fun, laughter, unity, community, and the strength of memes, it's essential to acknowledge the risks involved.

First and foremost, please remember that WSM20 is not your financial advisor. We can't guarantee astronomical gains or predict the future of the market. Investing in cryptocurrencies is like riding a rollercoaster - thrilling, unpredictable, and sometimes stomach-churning. Only invest what you're comfortable with losing, because, hey, memes may be powerful, but they're not a get-rich-quick scheme.

Furthermore, the crypto space can be a breeding ground for scammers and fraudsters lurking in the shadows. Watch out for impersonators, rugpulls, and suspicious schemes claiming to be associated with WSM20. Always double-check official channels and resist the temptation to fall for fake promises. The sad reality of the crypto space is that the scammers are relentless, tech savvy and most would happily steal their grandmother's last nickel without any remorse whatsoever, so be super careful and diligent. Above all, never give out your wallet secret phrase, nobody but a scammer will ask you for that. That is yours and yours alone, the instant you share it, your funds are gone, no question, and you'll never get them back.

Keep your meme shields up and stay informed about the latest updates and developments.

In summary, Wall Street Memes 2.0 is just a memecoin, not any exhilarating project that aims to reshape the world of finance with the power of memes. However, just as memes can go viral or fade into oblivion, the value of cryptocurrencies can fluctuate wildly. So buckle up, do your own research, and join us on this incredible journey with caution, a sense of humour, and a keen eye for opportunity, enjoy the ride although no doubt, it'll be a bumpy one!

MEMES 2.0
